How to Play

Word Search: find every word from the list in the grid of letters. Words can run across, down, diagonally and backwards. Two-word entries appear without the space.

Sudoku: fill every empty square with a number from 1 to 9 so that each row, each column and each bold 3 x 3 box has every number exactly once.

Word Scramble: rearrange the letters to spell a word that fits the page's theme. Some answers are two words.

Mazes: start at the arrow at the top left and find the one path that leads to the exit at the bottom right.

Cryptograms: each quote is written in a secret code where every letter stands for a different letter. The code changes with every puzzle. Start with the hint letters, then look for short words such as THE, AND and OF.

All the answers are at the back of the book.
